1 Q. If -- if the courts in Oregon ultimately  
2 determine that Measure 114 is constitutional, will the  
3 Oregon State Sheriffs' Association take any further  
4 action to advise its members that Measure 114 is not  
5 constitutional?

6 A. I'm not sure I can answer that question  
7 because it hasn't happened, and so the question isn't  
8 before the board.

9 Q. Are you personally aware of any sheriff's  
10 office that intends to refuse to implement Measure 114  
11 on the grounds that it is unconstitutional?

12 A. I cannot answer that question. I'm not aware.

13 Q. Not aware. Okay.

14 Has OSSA taken a position on whether  
15 Measure 114 is constitutional under the Oregon  
16 constitution?

17 A. No. That position statement was under the  
18 federal constitution.

19 Q. And I'm sorry to go backward for just a  
20 moment, but, Sheriff Myers, just so I understand your  
21 previous testimony, to your knowledge, you're not aware  
22 of any sheriff's office that intends to refuse to  
23 implement Measure 114 on the basis that it is  
24 unconstitutional; correct?

25 A. Yes, I'm not aware.

1 Q. So who -- what kind of individuals -- what  
2 roles of individuals are members of the permit agent  
3 workgroup?

4 A. Well, we thought it was important that  
5 these -- the workgroup be made up of subject matter  
6 experts. So they're folks that will actually be doing  
7 the job.

8 And so for OSSA, the representatives are civil  
9 managers with CHL experience. And they come from both  
10 large, medium, and small sheriff's offices.

11 And on the chief side, we have kind of  
12 similar -- there are records supervisors, although the  
13 chiefs have no experience with issuing CHL. We're  
14 trying to get that kind of subject matter expert, that  
15 level of individual that would be responsible for this  
16 and/or has responsibilities for similar kind of  
17 programs.

18 Q. When you say "chiefs," you're referring to  
19 the -- to Oregon police chiefs; correct?

20 A. Yeah, the Chief's Association, yes.

21 Q. Okay.

22 What is the status of the process map?

23 A. We -- so that group has met probably about  
24 four or five times. They are to the point -- they're  
25 very close to finishing their work product, which I

1 just mentioned was a 22-page process that I have in  
2 front of me.

3 It's very in-depth, because there are a lot of  
4 steps and a lot of liability if any of those steps are  
5 missteps. So they are to the point where they are just  
6 about ready to finalize their recommendation.

7 Q. And who will that recommendation be made to?

8 A. That recommendation will go to the OSSA and  
9 OACP executive committees.

10 Q. And do you expect those committees to vote on  
11 the recommendation?

12 A. Yes. I'm sure there will be a discussion.  
13 I'm sure that there will be questions. There may be  
14 even suggestions that items go back to the workgroup  
15 for further detail or changes. But I anticipate, in a  
16 process like this, that will occur -- it's entirely up  
17 to those bodies to determine and, you know, eventually  
18 vote and approve whatever the recommendations are.

19 Q. What is the effect of an approval by OSSA?

20 A. Well, I think it's important to be consistent  
21 throughout the state. So having those two bodies  
22 review the work and make sure that it meets the letter  
23 intent of the measure and is applied consistently  
24 across the state. So I think having that oversight is  
25 very important to ensure fairness to individuals that

1 will be shortly.

2 Q. Got it. And the second phase, you mentioned,  
3 is approval. That's just the discussion and  
4 potentially voting with the OSSA and OACP executive  
5 committees that we just discussed; correct?

6 A. That is correct.

7 Q. Has a -- will those committees discuss the  
8 recommendation together or separately?

9 A. My vision is to do it together. I think  
10 there's -- it's important for chiefs and sheriffs --  
11 again, for consistency and working off the same sheet  
12 of music -- that they have this discussion together and  
13 make decisions together because they're equally married  
14 to this, for lack of better words, in terms of the  
15 process. So, yes, that is my vision as to how to work  
16 together.

17 Q. Has that meeting been scheduled?

18 A. It has not, because we're again -- as soon as  
19 it's finalized, we will work to schedule that meeting  
20 as soon as possible.

21 Q. Okay.

22 And Phase III is implementation. You  
23 mentioned a few things that might need to occur there.  
24 Two of them that I managed to scratch down were  
25 training and technical assistance.

1           Are there other implementation items that --  
2           or are there other items that go into implementation  
3           other than training and technical assistance?

4           A. Those are the two items. I said information  
5           sharing, education, training, and technical assistance.  
6           It's the way I see it. Because some offices -- some  
7           sheriff's offices have experience with CHL. It may be  
8           a little easier. And then you have agencies like  
9           police departments that have no experience. So it just  
10           varies on their levels of sophistication or knowledge.

11           Q. My understanding is that Measure 114 allows  
12           sheriffs in local police departments to assign a  
13           designee to carry out the responsibilities of  
14           processing applications and issuing permits.

15           Has there been any discussion of either  
16           sheriffs or police departments designating each other  
17           as the permit agent for their jurisdiction perhaps  
18           under some kind of cost-sharing agreement?

19           A. Not at -- not at the association level that  
20           I'm aware of. I'm certain there's probably discussions  
21           at the local level, but I cannot answer that because  
22           I've not been privy to those conversations.

23           Q. Okay.

24           Are you aware of any reason why a sheriff or  
25           police department couldn't, if they reached an

1 have taken that online training; is that correct?

2 A. That is correct.

3 Q. So to go back to that in-person demonstration  
4 component, what is the status of the workgroup's work  
5 on that component of Measure 114?

6 A. So the workgroup finalized its  
7 recommendations, and we set a meeting that was going to  
8 be held between both OSSA and the OACP executive  
9 committees. And that meeting was held a couple weeks  
10 ago.

11 Unfortunately, the OACP's executive committee,  
12 because of a foul-up in scheduling, wasn't able to  
13 attend. But we went ahead with that meeting because it  
14 was in my declaration that it was going to happen.

15 And so the OSSA executive committee reviewed  
16 the recommendations and had some items that they wanted  
17 the workgroup to take a look at again and/or readdress.  
18 And so those items were sent back to the workgroup,  
19 which has met and addressed all of those issues and has  
20 finalized their work product.

21 And so that one is very close. The work  
22 product is just being vetted. It was captured by the  
23 chair and put into the documents, and now that  
24 information is being vetted right now. And once that  
25 is approved by the workgroup, that will be going before

1 the joint OSSA and OACP executive committees.

2 I will note there are two, kind of, areas that  
3 are outstanding that we -- they're difficult because  
4 the measure didn't articulate on those items, but they  
5 are very, very critically important.

6 Q. Yeah. What are those two areas?

7 A. The first area is around proficiency, what  
8 constitutes proficiency. There's no indication in  
9 there. So if it takes a person two hours to take this  
10 in-person demonstration, does that mean they're  
11 proficient or not proficient? It's subjective.

12 The other item is around individuals with  
13 disabilities. There is no -- the measure is silent on  
14 ADA issues or any kind of ADA accommodations, and that  
15 is an area of high litigation. So that's an area that  
16 is of great concern as we were putting this together.

17 What happens if we have a person that comes in  
18 that, for all other purposes other than maybe they  
19 don't have arms and can't handle a firearm but, for all  
20 other purposes, could, under the Second Amendment,  
21 purchase a firearm? There's no other issues other than  
22 they have an ADA issue. How do we give that individual  
23 an accommodation?

24 So those are the two outstanding areas that we  
25 think create a little bit of -- or, in some cases, a

1 Q. Got it.

2 And then the liability that the other  
3 workgroup is considering, it concerns potentially  
4 refusing to issue or issuing a permit to someone who  
5 either may not be appropriate to have a permit or  
6 should have received a permit; is that right?

7 A. That's correct.

8 Q. And are you aware of any other liabilities  
9 that the workgroups have considered?

10 A. No, I'm not.

11 Q. Once the in-person demonstration proposal is  
12 approved by OSSA and OACP's executive committees, what  
13 will happen next with that recommendation?

14 A. So it will be similar to the permit agent  
15 workgroup. It will kind of be that Phase III, which is  
16 the implementation phase. So that would be information  
17 sharing, training, and technical assistance.

18 And that one is going to be both for law  
19 enforcement and, depending on the potential for other  
20 entities to be certified, what does that look like, and  
21 how do we ensure that those entities receive the same  
22 information, same training, same forms, and that  
23 they're following those so that there's consistency?

24 Q. And so the recommendation that is approved by  
25 OSSA and OACP, executive committees would be

1 promulgated to the members of each association along  
2 with the training and information sharing that you  
3 discussed; correct?

4 A. That's correct.

5 Q. And once OSSA's members have that  
6 recommendation, they can then make a decision about who  
7 and whether to certify in-person demonstration  
8 trainers; correct?

9 A. Yes.

10 Q. Yeah.

11 And just so -- I think you have been clear  
12 about this. But just to make sure that the record is  
13 clear, OSSA itself will not certify in-person  
14 demonstration trainers; is that right?

15 A. I don't know that because the boards haven't  
16 met and made that determination. It's probable that it  
17 won't, but I can't say that because that is a decision  
18 that will be at the board -- at the executive committee  
19 level.

20 Q. Got it.

21 A. So you would be asking me to answer a question  
22 that they're the ones that make that decision of  
23 determination.

24 Q. Sure. Fair enough.

25 And do you know if the workgroup is going to

1 decisions that are preventing enforcement were to run  
2 out or be vacated by other courts and the measure were  
3 to go into effect, what -- is there any contingency  
4 plan for how a sheriff's office would accept an  
5 application and issue a permit?

6 A. Well, since it does -- since nothing exists,  
7 there's really no contingency plan because I think our  
8 organization and the chiefs are working towards that,  
9 but the pieces aren't in play. So I don't know how you  
10 do something when you don't have all of the components  
11 to be able to effectuate it.

12 Q. The first two items you mentioned are things  
13 that we have talked a lot about, that's the process and  
14 the in-person demonstration. And I understand the  
15 workgroups are working on that.

16 And, eventually, you know, I think it's -- you  
17 would say it's fair to assume that there will be an  
18 approval on a recommendation at some point; correct?

19 A. Yes.

20 Q. Okay.

21 So does that mean that the only -- you know,  
22 the only legal impediment to Measure 114's eventual  
23 implementation is the FBI issue?

24 A. Legal impediment? Yeah, that's the aspect I  
25 see. There are other impediments as well, and I think

1 I've stated those.

2 Q. Yeah. Got it.

3 And those other impediments are just, you  
4 know, the process isn't complete and the in-person  
5 demonstration is impossible to take at present;  
6 correct?

7 A. Yeah. And the resources don't exist in terms  
8 of personnel because there was no funding that came  
9 along with this. So that is another impediment.

10 And, honestly, I believe that if, as you were  
11 saying, everything was vacated and it's all systems go,  
12 even if everything was stood up and working, the system  
13 will be overwhelmed. Because I know from experience in  
14 watching this happen, individuals are going to descend  
15 on this. And it's probably going to be numbers that  
16 are astronomical.

17 And so without the system being stood up,  
18 without the resources, it will -- the system will be  
19 overwhelmed just by the sheer vast numbers. And I  
20 think it's at OSP as well. They don't have the  
21 resources either. So it's system-wide. The resources  
22 are not there. So even if you have the systems in  
23 place, that is still an impediment as well.

24 Q. Got it.

25 And we haven't talked about resources yet.
